

field athlete whose events include the 400m, 800m, 1500m, 1600m, and the 3,200m. Over the course of her high school career, Christina earned nine State champion titles; three of those titles were earned while running with a broken elbow.

On June 5, Christina attended the Payton Jordan Invitational at Stanford and completed the 1500m in 4:11.24. Competing in a packed race with multiple professionally sponsored runners, this 18-year-old surprised everyone in attendance. On June 12, at the Portland Track Festival, Christina defied expectations yet again and set a national record of 4:09.27, becoming the third fastest 1500m high schooler in history, while simultaneously qualifying for the Olympic time trials. This weekend, she will compete in the Brooks PR Invitational in Renton, WA, where she holds the record for the 800m at 2:04.00. Christina will also attend the Olympic time trials in Oregon on July 1, 2016.

Christina represents the youngest of the Aragon track and field legacy. Her father was the first Notre Dame runner to break the 4-minute mile in 1981. Her mother competed in her third Olympic time trial in 2004, and her older sisters, Danielle and Alexa, hold multiple State champion titles and run together as All-Americans at Notre Dame. Christina will attend Stanford University this fall and continue her track and field career.

When asked about the Olympic time trials, Christina commented, "I'm obviously going to be pretty nervous, but I'm just going to try to channel that nervousness into more excitement because that's just an awesome opportunity and I'm really lucky to be able to have that so I'm just going to go out there and have fun and run fast, hopefully."

William Shakespeare wrote, "Though she be but little, she is fierce," a quote that I feel resonates all too well with this determined and fearsome young lady. I ask that you join me in wishing Christina the best of luck in the coming weeks. I have no doubt that she will continue to make her family and Montana proud.●

TRIBUTE TO BRENDA KADRMAS

● Mr. DAINES. Mr. President, today I wish to recognize a Havre Police Department dispatcher, Brenda Kadrmass. Originally from Conrad, Brenda is a 10-year veteran to the department. She acted in a swift and steadfast manner during a terrifying situation and put her extensive training to work in order to prevent a suicide.

Brenda has taken full advantage of training opportunities—thankfully, she did; she was able to save a life. Thank you, Brenda, for your commitment to the department and the city of Havre. You have shown tremendous leadership and dedication, and for that, I am proud of you. Keep up the great work, and thank you for your service.●

TRIBUTE TO DAVE WICHMAN

● Mr. DAINES. Mr. President, today I wish to recognize Dave Wichman, superintendent and assistant professor of agronomy at Montana State University. He has dedicated 35 years of his life working in the agricultural research centers for the State of Montana.

Dave has worked with Montana Agricultural Experiment Stations since 1976, serving at both the Southern Ag Research Center in Huntley and Central Ag Research Center in Moccasin, MT. Dave has impacted forage crops, pulse crops, oil seed crops, cereal agronomy, and foundation seed.

Dave, thank you for your passion, your knowledge, and your dedication. Montana thanks you for a job well done and wishes you the best.●

TRIBUTE TO DR. STEPHEN WELLS

● Mr. HELLER. Mr. President, today I wish to recognize Dr. Stephen Wells for his service with the Desert Research Institute, or DRI, after being a significant team member for 16 years. It gives me great pleasure to recognize his years of hard work and commitment to making this institute the best it can be.

Dr. Wells earned his master's degree and doctorate in geology from the University of Cincinnati in Ohio. He later served as a professor of geomorphology and chair of the graduate program in the Department of Earth Sciences at the University of California, Riverside, jumpstarting his academic career. In 1976, he joined the University of New Mexico, serving as chair of the Department of Geology from 1989 to 1991. In both roles, Dr. Wells built internationally recognized research and graduate programs and enrolled 34 students into the programs.

Beginning in 1995, Dr. Wells began his lengthy tenure with the DRI as executive director of the Quaternary Sciences Center. Throughout the next 16 years, he worked diligently to climb the ladder and became president of DRI, one of the world's largest multidisciplinary environmental research organizations, located in our great State. The institute has 500 scientists, technologists, students, and other staff working to further develop nationally recognized research. Dr. Wells led the institute with three core divisions and four interdisciplinary science centers, which serve Nevada and regions across the globe with innovative research. Dr. Wells also helped to build the institute to a \$50 million per year operation, compared to the \$23.8 million in 1998. Residents across the State are fortunate to have had someone of such dedication working on behalf of the institute.

During his time in Nevada, he emerged as a true leader within our community. Dr. Wells served as a graduate faculty member in the hydrological sciences program and the

Department of Geological Sciences at the University of Nevada, Reno. He also served as a board member of the Economic Development Authority of Western Nevada and the Nevada Development Authority. In addition, he spearheaded various initiatives in unmanned aircraft systems technology, as well as helping position Nevada as a frontrunner in advanced technologies. I have worked with him personally on various Nevada priorities and am thankful to have had him as an ally in these initiatives.

Dr. Wells has received three national awards in recognition of his work: the Geological Society of America Kirk Bryan Award, the Gladys Cole Award, and the Geological Society of America Farouk El-Baz Award. These accolades are a tremendous honor, and without a doubt, Dr. Wells' work warrants this recognition.

I ask my colleagues and all Nevadans to join me in thanking Dr. Wells for his dedication to DRI throughout the past 16 years. He exemplifies the highest standards of leadership and service and should be proud of his meaningful career. I wish him well in all of his future endeavors and in his new role with the New Mexico Institute of Mining and Technology.●

TRIBUTE TO AMBER PARSONS

● Mr. MANCHIN. Mr. President, I rise today to honor Amber Parsons, an outstanding and accomplished young woman from Wheeling, WV.

Amber, a recent graduate of Wheeling Park High School, graduated in May with honors and with an outstanding 4.0 GPA. She has received numerous Presidential Award Scholarships because of her outstanding effort and hard work and also attended the Global Youth Leadership Conference last summer with individuals from more than 30 countries.

The Global Youth Leadership Summit is both an academic and professional opportunity for young men and women to not only enhance their academic abilities, but grow personally and professionally as well. The summit immerses students in various cultures and gives them the opportunity to interact with policy officials, lobbyists, journalists, and other industry leaders. It is a wonderful opportunity for young men and women to learn and grow on a professional and personal level.

Amber is the only individual ever from West Virginia to be selected to attend this prestigious conference. While being selected from 3,700 applicants is an accomplishment in itself, she was also selected to return again this year. Less than 10 percent of previous attendees are asked to return, and Amber was included in that small percentage.

Aside from her outstanding academic work, Amber also helped to establish

St. Baldrick's Day in Wheeling, a premiere childhood cancer research fundraiser that is prominent throughout the State and has been for 13 years.

Alongside all of her accomplishments, Amber also enjoys performing in stage productions and has performed in several, including "Scrooge," "Foot-loose" among others.

Amber Parsons is not only an outstanding student, but an accomplished individual as well. Being a member of National Honor Society, graduating from Wheeling Park with honors, and being selected to attend the Global Youth Leadership Summit, I am extremely proud of this young woman for representing my State of West Virginia.●

100TH ANNIVERSARY OF THE LANSING ROTARY CLUB

● Mr. PETERS. Mr. President, today I wish to recognize the Lansing Rotary Club's centennial. For 100 years, the Lansing Rotary has been a cornerstone of fellowship and service for those in the greater Lansing community. Throughout that time, it has remained committed to the core value of all Rotarians, "Service Above Self," by enhancing the quality of life of the City's residents and helping shape business leaders into community leaders.

Founded on May 29, 1916, the Lansing Rotary was the 232nd club in the world and the seventh in Michigan. Its commitment to service was demonstrated almost immediately; within the first 6 months, the club contributed funds to help erect a barrier at a dangerous curve on Okemos Road, generated enthusiastic support for a citywide vote to establish municipal garbage collection for Lansing residents, donated footballs to the poorly equipped Lansing Boys Industrial School, and began the tradition of hosting annual Christmas parties for children in need.

What truly thrust Lansing Rotary into the spotlight was its organizing of the Cabaret Charity Ball in 1917. Created to pay for the paving of the road connecting Lansing and East Lansing, the State Journal called the Ball, "easily the most talked of social event in the history of the city . . . it will be the marking of the growth of Lansing from a little city to the ways and habits of larger and more progressive cities." In a remarkable display for a club still less than a year old, the ball attracted hundreds of attendees and funded the paving of the road known today as Michigan Avenue, the road that leads directly to Michigan's Capitol building.

Like many rotary clubs around the world, Lansing Rotary gained a reputation for its emphasis on providing unique services. Continuing the main trend of its work during that immensely successful first year, Lansing Rotarians became best known for their efforts in assisting disadvantaged children. In the decades that followed, the club purchased a 12-acre campsite and

donated it to Boy Scouts; established an educational loan fund to send young people to college; created a dental program for children and youth; donated \$10,000 for the establishment of Camp Ingham, a facility for troubled boys between the ages of 14 and 17; and, in 2002, it contributed \$100,000 to Lansing's Helping Other People Excel, HOPE, scholarship program for Lansing at-risk youth.

Today Lansing Rotary boasts a membership of nearly 300 and continues to fulfill its mission of "Service Above Self." Since its establishment 100 years ago, it has donated millions of dollars to Lansing-based organizations and continues to give through annual grants to organizations like the Greater Lansing Food Bank, the Mother Teresa House, and Lifetech Academy, Michigan's cyber school. Moreover, it provides similar services internationally, including grants for small projects in the Philippines, India, and Mexico, and larger projects like the construction of a school in Sri Lanka after the tsunami. Through its generous service to Lansing and helping shape business leaders and community leaders alike, Lansing Rotary is truly a pillar of mid-Michigan.

I am honored to ask my colleagues to join me today in recognizing the Lansing Rotary Club's 100th anniversary and its service to the greater Lansing community. As the organization moves into the future, I am confident it will continue to demonstrate the same high standard it set so profoundly 100 years ago.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Pate, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

ENROLLED BILLS SIGNED

At 2:20 p.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

S. 2276. An act to amend title 49, United States Code, to provide enhanced safety in pipeline transportation, and for other purposes.

H.R. 812. An act to provide for Indian trust asset management reform, and for other purposes.

H.R. 2137. An act to ensure Federal law enforcement officers remain able to ensure

their own safety, and the safety of their families, during a covered furlough.

The enrolled bills were subsequently signed by the President pro tempore (Mr. HATCH).

MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1475. An act to authorize a Wall of Remembrance as part of the Korean War Veterans Memorial and to allow certain private contributions to fund that Wall of Remembrance; to the Committee on Energy and Natural Resources.

ENROLLED BILL PRESENTED

The Secretary of the Senate reported that on today, June 16, 2016, she had presented to the President of the United States the following enrolled bill:

S. 2276. An act to amend title 49, United States Code, to provide enhanced safety in pipeline transportation, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-5778. A communication from the Chair of the Board of Governors, Federal Reserve System, transmitting, pursuant to law, a report entitled "Report to the Congress on the Profitability of Credit Card Operations of Depository Institutions"; to the Committee on Banking, Housing, and Urban Affairs.

EC-5779. A communication from the Assistant Secretary of the Army (Civil Works), transmitting, pursuant to law, a report entitled "The 2015 Evaluation Report to the U.S. Congress on the Effectiveness of Coastal Wetlands Planning, Protection and Restoration Act Projects"; to the Committee on Environment and Public Works.

EC-5780. A communication from the Director of Regulations and Policy Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Advisory Committee; Transmissible Spongiform Encephalopathies Advisory Committee; Termination" (Docket No. FDA-2016-N-0001) received in the Office of the President of the Senate on June 10, 2016; to the Committee on Health, Education, Labor, and Pensions.

EC-5781. A communication from the Assistant Secretary for Legislation, Department of Health and Human Services, transmitting, pursuant to law, a report entitled "2012 and 2014 Regional Partnership Grants to Increase the Well-Being of and to Improve the Permanency Outcomes for Children Affected by Substance Abuse: Third Annual Report to Congress"; to the Committee on Health, Education, Labor, and Pensions.

EC-5782. A communication from the Assistant Secretary for Legislation, Department of Health and Human Services, transmitting, pursuant to law, a report entitled "Report to Congress on the Food Processing Sector Study"; to the Committee on Health, Education, Labor, and Pensions.

EC-5783. A communication from the Assistant Secretary for Legislation, Department of
